

BULLER FORCES MOUNTAIN RANGE

Has a Successful Engagement With the Boers at Biggarsberg.

ROBERTS PUSHING ON

British Expect to Cross the Vaal River Before the End of the Week.

MANY SICK AT BLOEMFONTEIN

Ladysmith, May 14.—[Special Cablegram.]—General Buller has had a successful engagement on the Biggarsberg road. It is reported that he has forced the mountain range.

London, May 14.—[Special Cablegram.]—A dispatch from Cape Town says that thousands of men under Kitchener are rushing supplies to Kroonstad. It is not believed that Robert's halt will not be more than two days. French is already pushing forward, and the popular impression is that the British will be across the Vaal before the end of the week.

Bloemfontein, formerly the healthiest town in South Africa, is now a vast hospital with twenty-five hundred cases of typhoid fever alone.

War Is Practically Over.

London, May 14.—"The war is practically over," says the Daily Chronicle's Kroonstad correspondent, and, in less definite terms, this is the view to be gathered from all the correspondents. They picture the Boers as utterly demoralized and disheartened by Lord Roberts' unexpectedly rapid advance and by his facile turning of the carefully prepared positions of the Boers.

As It Is Viewed in Berlin

Berlin, May 14.—The occupation of Kroonstad by Lord Roberts without resistance has caused the greatest surprise here. The military expert of the Lokal Anzeiger finds an explanation in the fact that many of the Boers have deserted. It says:

"Lord Roberts' advance was splendidly executed. It is worthy to be placed beside the Kaudahar expedition. The situation is now changed so greatly in favor of the British that the fate of the Transvaal Boers is settled."

London Has Begun to Celebrate

London, May 14.—London has already begun to celebrate the relief of Mafeking. It is true that there are no official orders that Baden Powell's nifty garrison is free to go, over the wire, but the rumors were so persistent yesterday afternoon and evening and so probable did it seem that many enthusiasts insisted on starting things.

Ladysmith, May 14.—[Special Cablegram.]—Gen. Buller's army advanced from here in two columns, north and northeast, the latter were mounted troops, via Helpmakaar, in order to flank the Boer positions. The flanking movement was successful and the Boers are said to be retiring. It is expected that Buller will reach Dundee today.

JEFFERSON DEFEATS JANESVILLE TEAM

Score Was 13 to 1 and the Boys From the Bower City Have Not a Word to Say.

At Jefferson yesterday afternoon the Jefferson Blues defeated a team organized in Janesville by Tom Morrissey. The score was 13 to 1. The attendance was two hundred. The Jefferson battery consists of Heimel and Roessler, while Foley and Akin played the points for Janesville. The local players were accompanied by a small sized delegation.

HIS FIGHTING POWER LIMITED

How a Local Business Man Misjudged One He Intended to Punish

Said a local resident to Chief of Police Hogan Saturday: "What will it cost me to lick a certain man in this town?" The chief replied that that was a matter entirely left with the court. The two men then parted and the chief of police thought nothing more of the affair till notified this morning of a little happening that took place this morning on the west side. It seems that the very young man who put this question to Chief Hogan tried his hand at thumping his intended victim, but that before the first round was half over he would have been more than pleased to have called it off. The would-be fighter got more than his share. The next time he will know better than tackle a college trained foot ball player.

FINE ribbed fast black Rockford hose for children, 50 dozen pair, at 11¢ per pair; worth 20 cents. The special price for tomorrow only. Bort, Bailey & Co.

RENDERED HOMELESS BY FIRE.

About 250 People Turned Into Street by Camden (N. J.) Blaze.

Camden, N. J., May 14.—Fire which broke out in the Farmers' market house, at 5th and Federal streets, completely destroyed that building, ten stores and about fifty small dwellings, rendering homeless about 250 persons. These homeless people are quartered in the armory building and are being fed at the expense of the city. The chief of the Camden fire department early realized that the fire was beyond the control of his limited force, and the fire department of Philadelphia was called upon for assistance and sent four companies. The flames leaped across 5th street and a second row of small houses there was soon destroyed. When the chemical laboratory of William Cowgill caught there was a series of explosions. The Cowgill establishment was gutted. The principal losses were the Farmers' market, \$15,000; Cowgill chemical laboratory, \$10,000. The loss on small buildings was \$100,000 more.

GOLDEN WEDDING OF DAVID JEFFRIS

VENERABLE COUPLE TO CELEBRATE THIS FALL.

Were joined in the Holy Bonds of Matrimony Fifty Years Ago This Year—Have Resided in Janesville for Many Years and are Well Known to Residents of All Rock County.

Fifty years ago this fall Mr. and Mrs. David Jeffris were united in the holy bonds of matrimony. Surrounded by relatives and friends this venerable couple expect to celebrate their golden wedding anniversary at their home in this city and are looking forward to the time with much pleasure.

On the 14th day of November 1850 Mr. Jeffris was united in marriage to Miss Grace Monat, a daughter of Malcolm Monat, who came to Rock county with his family in the fall of 1845 having the same year, emigrated from Scotland. Mr. Jeffris is among the early settlers of Janesville and none have been more prominently identified with the growth of the Bower City.

Mr. Jeffris arrived in Janesville on June 7, 1856 and for now these many years he has made this city his home. He is a native of Kentucky having been born in Grayson county, August 6, 1821. His ancestors were residents of Virginia long before the war of the Revolution and his grandfather, Thomas Jeffris, served in the army of General Washington for five years of that struggle. In the year 1797 he left Virginia, removing with his family to Tennessee and from thence to Kentucky some years later.

Mr. Jeffris is an enterprising citizen that all Janesville is proud of. Many of the important buildings of Janesville have been erected through his influence and enterprise. He has been in the erection of many residences and business houses and it can be truthfully said that no man has done any more for the building up of the city than Mr. Jeffris. The most important business buildings erected by him are the Merchants' and Mechanics' bank building and the Grand Hotel. He was one of the organizers of the Merchants & Mechanics saving bank and was elected the first president of the bank which position he occupied for four years.

Mr. and Mrs. Jeffris have long been faithful and consistent members of the Congregational church. In politics Mr. Jeffris is a supporter of the republican party.

FACE DEATH FROM A BALLOON.

Boys Accidentally Caught in the Ropes Hauled Skyward.

Pottsville, Pa., May 14.—People stood helpless and viewed with horror an accident that occurred when the lives of an aeronaut and three boys were in imminent danger during an exhibition at the Lowery circus.

David McDade, an aeronaut, was preparing a trapeze act from a bar attached to a balloon and parachute. Among the thousands near him were three boys. The balloon was inflated and at a word from McDade the guy ropes were severed. In an instant the big airship left the earth and simultaneously there was an outcry of horror from the crowd as the three boys were discovered dangling among the ropes.

In their eagerness to watch the ascension the boys had unconsciously stepped among the ropes attached to the ship. The balloon had risen probably twenty-five feet when two of the boys squirmed through the meshes of rope and dropped to the ground unhurt. Soaring up with the big ship, however, rose the third boy, Wallace Cartwright, aged 19 years, until he appeared but a mere speck in the sky. The crowd watched in breathless anxiety the boy's plight. Young Cartwright clung with his hands to the dangling rope with tenacious energy. When he had risen 1,000 feet the hot air in the balloon became exhausted. The boy hung directly above McDade's head, and the latter was fearful lest the boy, if he fell, would strike him and both would be dashed to death. By promises and threats the aeronaut induced Cartwright to cling to his flimsy support until the airship dropped safely upon a field.

TOWNE TO WITHDRAW SCHEME OF BRYAN'S

HIS NOMINATION AT SIOUX FALLS WAS DICTATED.

Populists are Wondering Where They are at—Speculating as to What Effect Towne's Nomination Will Have on the Democratic National Convention—Wrangle is Certain.

Omaha, May 14.—There is no doubt but that the leaders of the Sioux Falls convention were supplied with a written memorandum in Bryan's own writing outlining the plan they were to pursue on the vice presidency.

The memorandum embodied the following instruction: "Nominate some man who will withdraw if not endorsed by the other two parties."

The adoption of this plank of Colonel Bryan's bill of instructions will be taken to mean that Mr. Towne has been given a majority merely to fill the time up to the Kansas City convention and prevent the position from being occupied by some one distasteful to Mr. Bryan.

Populists Thinking Hard.

Sioux Falls, S. D., May 14.—The populists who nominated Charles A. Towne for vice president last week, after a most bitter fight in their national convention, are now wondering as to the effect of this action upon the democratic convention in Kansas City July 4.

That Mr. Towne was a possibility as a democratic vice presidential nominee was fully substantiated by the events of the past week.

The fact that Mr. Bryan had intimated that he preferred the nomination should be made by the populists at Sioux Falls, and an expression by Mr. Towne to the effect that he would prefer the appointment of a committee to confer with the democrats to carry out the theory that he was being held in reserve as a man upon whom the democrats, silver republicans and populists might agree upon later on as the most available candidate.

TOWN-OF FISHER IS BURNING UP

Great Fire Raging in a Small Village Near Marinette—Aid Has Been Sent.

Marinette, Wis., May 14.—[Special Telegram.]—A telegram was received here this morning stating that the town of Fisher was burning up. The local fire department was requested to come up and help fight the flames. Assistance was sent and great efforts are being made to save the town. A strong wind is blowing and it is feared all property will be totally destroyed. The town is a place of about one thousand inhabitants and the C. H. Worcester company's big saw mill and lumber yard is located there. The loss will be several hundred thousand dollars.

Six Killed in a Train Wreck.

Lordsburg, N. M., May 14.—A wreck occurred on the narrow gauge road between this place and Clifton, in which Engineer Schlotman and Fireman McAfee were killed. Four tramps are also reported among the dead. Nine carpenters of a bridge gang were more or less injured. The entire train of twelve cars went into the ditch and was entirely demolished. The train was proceeding at high speed when the engine plunged into a bridge that had been burned and was being repaired.

The carpenters at work were hurled in every direction. It is alleged the foreman in charge of the bridge gang failed to display danger signals warning approaching trains.

Three Meet Death in Storm.

St. Paul, Minn., May 14.—A severe wind and hail storm visited the northwestern part of St. Paul at 8 o'clock Sunday night following a very hot day. Patrick Sexton, a wholesale cigar dealer, was driving with his children in Dale street. A flying timber frightened the horse. All were thrown out. Sexton was killed, two of his children were injured and two escaped. Fanny Mullen, a domestic, was killed while attending service at St. Luke's Catholic church by a chimney falling through the roof. John M. Lang was also killed while driving in the Stillwater road. The Interurban street car line was put out of service.

Negro Lynched in Georgia.

Augusta, Ga., May 14.—[Special Telegram.]—William B. Willie, colored, who shot and killed Aleck Whiting, a prominent white man, yesterday, for not making room for him in a street car was lynched by a mob at Grovania this morning.

Sales of Seed Leaf Tobacco

Sales of Seed Leaf tobacco reported by J. S. Gans' Son, broker, No. 128 Water street, New York, for the week ending May 14, 1900.

3000 cases, crop of 1899, Wisconsin Havana Seed, at 11 to 13 cents.
400 cases, crop of 1898, Pennsylvania Seed Leaf at 11 to 12½ cents.
250 cases, crop of 1897, Pennsylvania Havana at 12 cents.
100 cases, crop of 1898, Zimmers, at 13 to 14½ cents.
300 cases, crop of 1899, New England Havana Seed, forced sweet, at 30 to 35 cents.
Total, 4300 cases.

NUMBER AND WORK OF THE BISHOPS

INTEREST CENTERS AROUND METHODIST ELECTIONS.

Committee on Episcopacy Holds Important Session—Consider Number to be Elected and Question of Dividing World Into Districts, Assigning One to Each.

Chicago, May 14.—Church constitution and methods of election were discussed at the beginning of this week's sessions of the Methodist Episcopal conference, Bishop Fitzgerald presiding. The committees on episcopacy, itinerancy, boundaries, revisions, temporal economy, and state of the church are hard at work. Tuesday night the Epworth league anniversary takes place at the Auditorium. Bishops will be elected Wednesday. Thursday is set apart for the election of editors and general conference officers, and on Friday will come the report of the committee on eligibility of women to the general conference.

Candidates for the Methodist episcopacy got another shock yesterday. "Two missionary bishops, no new bishops for America," the decision of the unofficial caucuses of hotel and church lobbies dampened the hopes of a dozen men who came to Chicago with bishoprics looming big on their horizons. Wherever lawn-tied delegates met talk turned on the fight the younger men in the church will make when the committee on episcopacy submits its belated report, to prevent the election of the two bishops which the committee is expected to recommend for work in the home field.

Every delegate to the conference has his first and second choices for places on the board. Before the committee on episcopacy, yielding to the pressure of the younger ministers and laymen, determined to add only two bishops to the home board, every man had his favorites of the fifth, sixth and seventh degrees. It seemed a foregone conclusion that at least six American bishops would be selected.

Besides settling the number of bishops to be elected the committee must determine whether or not a bishop of African descent shall be chosen at this conference, where the Episcopal residences for the coming quadrennium ought to be limited to diocesan boundaries or not.

Bishops occupied many pulpits in Chicago Sunday.

Wesley Methodist church, North Halsted street, was crowded to its capacity when Bishop I. W. Joyce of Minneapolis, preached upon the foreign missions of the Methodist church, principally those in China and Korea. His descriptions of scenes among the converted heathens moved his hearers to tears, and after his sermon and prayer the people crowded around him to shake hands and give expression to the feeling which his sermon had wrought. The bishop read fifteen questions asked him by some Chinese girl students in a Methodist institution for the education of Chinese girls in Foo Chow, China. "The questions," he said, "show the mental activity and development of the girls in the school and are worthy of students for the ministry. In the three countries of eastern Asia the Methodist Episcopal church has no less than 15,000 Christian women, every one of them brought into the Christian life from heathenism by the representatives of the Women's Foreign Missionary society."

HIGH DEATH RATE IN INDIA.

Mortality Is Greatly Increased by the Famine—Relief in England.

London, May 14.—In the house of commons the secretary of state for India, Lord George Hamilton, replying to a question on the subject of the famine in India, confirmed the reports heretofore received of the excessive famine and the mortality therefrom in the native states. He added that British officers had been sent to those states to advise and assist the native governments, and that loans had been and would continue to be made by the Indian government to meet the expenses of the operations for the relief of the famine sufferers in territories outside of British rule.

The latest mails from India give additional details of the calamity which has befallen "the brightest jewel in the imperial crown." A correspondent writing from Nagpore, capital of the central provinces, on April 30, says:

"It is impossible to convey by means of mere figures any adequate idea of the paralyzing effect of a drought such as India is now experiencing. The value of the wheat crop destroyed is \$8,000,000 to \$10,000,000 and the cotton crop \$7,000,000, while the great oil-seed crop is non-existent outside of Bengal, the northwest provinces and Oude. On a moderate computation the cultivators of Bombay province have lost \$15,000,000 on food crops and \$3,000,000 on cotton. More serious and more far-reaching than the destruction of the crops is the awful mortality in cattle."

Jumped to Her Death.

Cleveland, May 14.—[Special Telegram.]—Sarah Kapebarger, demented from grief over her mother's death, leaped from third story window of a Forest City hotel this morning. She was terribly mangled.

BELOIT SUNDAY OBSERVANCE

Ministers Urge It From Pulpits in Line City.

Beloit, Wis., May 14.—[Special.]—At the different churches in this city yesterday the pastors gave very strong addresses on the observance of Sunday. It is thought that there are too many sports carried on on the Sabbath day, therefore the pastors thought it wise to preach on the observance of the Sabbath day.

At the Presbyterian church in addition to the pastor's address Mr. J. W. Bates gave a very good talk on temperance. Beloit pastors seem to think it wrong to indulge in playing golf on the Sabbath day. Very good sermons were given by all the pastors.

Mrs. Nicholas Brown an old resident of this city, died Saturday and was buried this morning from St. Thomas church at 10 o'clock. She leaves a husband to mourn her loss.

LONG FIGHT WEARS OUT GOV. TAYLOR

Kentucky Gubernatorial Case Was Not Decided in the United States Court Today.

Indianapolis, May 14.—[Special Telegram.]—Governor Taylor of Kentucky, arrived here again this morning from Washington, although he announced a week ago when he left that he would remain in the capital until his case was settled. Asked whether he would go back to Kentucky if the decision of the supreme court was against him, he said he hardly thought it would be the proper thing to do, but could not tell now. He said he was the sole man the democrats were after, not the others now under trial for complicity in the Goebel murder case.

Washington, May 14.—[Special Telegram.]—The case involving the right of the Kentucky governorship was not decided in the supreme court today, although expected. It probably will be next Monday.

ORDER TO RELIEVE MAJOR RATHBONE

Criminal Carelessness and Extravagances Being Unearthed in Affairs of Cuban Postoffices.

Washington, May 14.—[Special Telegram.]—It is stated on authority that Major Rathbone, director of posts in Cuba, will be immediately relieved for carelessness and extravagance revealed by the Neely case. The total shortage in Cuban postal affairs thus far is reported to be one hundred and five thousand dollars.

RAILROAD CASES HAVE BEEN SETTLED

Both the Chicago & Northwestern and the Chicago, Milwaukee & St. Paul Interested.

When the damage suits of Ida H. Scott, James W. Scott, Caroline A. Downing vs. C. M. & St. P. Ry. Co. and C. & N. W. Ry. Co. was called in the Rock county circuit court this morning, the interested attorneys informed the court that a satisfactory settlement had been made with the plaintiff and that the cases would not be tried.

The price of settlement is said to have been made at a good figure. The plaintiffs sued for injuries in a wreck near this city caused by the collision of a passenger train on the Northwestern and a freight on the Milwaukee road.

DISTRUST OF JAPANESE COURTS

A Recent Decision Increases Lack of Confidence by Americans.

Yokohama, Japan, May 14.—The feeling of alarm among the foreigners with regard to their being placed under Japanese jurisdiction has been increased by the recent decision of a native court in the case of the Kobe Water works company, involving a sum of nearly half a million yen. The decision was given against Mr. Morse of the American Trading company, who had sued the water works for nonfulfillment of the terms of a loan made by him to the water works company. Among the Japanese themselves there is going on a healthy discussion as to the character and competency of the native judiciary. This has been stimulated by the report of the government commission recently sent abroad to investigate the standing of the American and European courts. The conclusions of the commission are that Japan's judges must be better paid and given a far higher social standing before the nation can hope to place its courts upon a par with those of the occident. In financial affairs the last week witnessed a sharp and sudden fall in Japanese securities. The railway stocks were the chief sufferers. The rates of interest, rule high and the principal banks are offering 7 per cent for six months' deposit and 5½ on current accounts. There is much uneasiness in the air, chiefly on account of the course of foreign trade. Imports up to the middle of the month exceeded the exports by 44,000,000 yen, or about \$22,000,000.

GENERAL STRIKE IN KANSAS CITY

Labor Unions Seek Sympathy of Citizens in Street Car War.

Gov. Stephens of Missouri Takes Strong Stand Against Riotous Proceedings.

BITTER FIGHT LIKELY

TO CALL MILITIA IF NEEDED

Kansas City, Mo., May 14.—The industrial Council, comprising all the trades and labor unions in Kansas City, decided by unanimous vote this morning to take a hand in the strike on the Metropolitan Street Railway system.

The war will be waged on almost exactly the same lines as the unsuccessful strike against the Big Consolidated in Cleveland a year ago—by a sympathy strike, which will include all the union labor connected in any way with the Metropolitan system, and by a stringent boycott of the business and professional men who patronize the company's cars while the strike is on.

The sympathy strike will include firemen, engineers, electricians, track men and the musicians who play at the company's parks. Both the strike and the boycott are to go into effect at once.

General Strike Talked Of

There was some talk of calling a general strike of union labor until the trouble on the Metropolitan is settled, but it was decided not to take such radical action except as a last resort.

Sitting in the United States Circuit Court at Kansas City Judge W. O. Hook on Saturday night issued a sweeping injunction restraining the street railway strikers from interfering in any way with the operation of the road until next Saturday when the matter comes up in court.

National President Mahone today sent a telegram to General Organizer Bryan, in charge of the Kansas City strike, in which he says:

"Reported that you and labor leaders of Kansas City have been served with cruel injunctions by a notorious Jeffries, calling himself a federal judge."

"Stand by your constitutional rights, which are equal to those of any corporation in Missouri. Bid organized labor do its duty."

Extra Police Sworn In

St. Louis, May 14.—[Special Telegram.]—Twenty-five hundred extra police were sworn in today to preserve order. Additional cars were started on all the lines with no opposition from the strikers. At noon another conference was held by the Merchants' committee with the transit officials, seeking a settlement.

Gov. Stephens Is On Deck.

St. Louis, Mo., May 14.—Governor Stephens, who arrived from Jefferson City today, has put his foot down on the strike riots and mob violence which have prevailed here for a week. Unless disorder is stopped by the police he says he will call out the entire military force of the state to maintain law and order. No more vigorous stand against disorder was ever taken by any governor in the United States than that outlined by Mr. Stephens in his manifesto issued from the executive mansion.

Yesterday the sixth day of the street railway strike, was especially quiet and devoid of interest. Not a wheel on any of the lines, except of the mail cars was turned in the city, in consequence of the decision of Chief of Police Campbell to give the men of the force a chance to recuperate for the coming week.

AN OMINOUS CLASH IN CONGO STATE

Belgian Troops Attack the Germans Near Lake Kivu—Germans Fortify Across the Frontier.

Berlin, May 14.—[Special Cablegram.]—Hostilities have broken out between the Belgian troops in the Congo Free State and the German force near Lake Kivu. The Germans were driven from their post waiting for reinforcements which have not yet arrived. They have fortified across the frontier.

Shoots a School Director.

Dunlap, Iowa, May 14.—Tom Taylor, a well-known lawyer, stood upon the steps of the postoffice and as E. H. Barrett, a school director, passed by Taylor fired half a dozen shots at him. Two balls pierced the legs and a third lodged in the groin. Barrett was carried home on a stretcher suffering great agony. Taylor's grown son took the revolver away from his father. At the last meeting of the school board Taylor is supposed to have harbored the idea that Barrett was accountable. Taylor is in jail. Threats are made by Barrett's friends that Taylor will be lynched if the victim of the shooting dies.

Leading wheels. Talk to Lowell.

C. R. BRIDGMAN OUT FOR MR. WHITEHEAD

DARLINGTON MAN SPEAKS FOR THE DISTRICT CANDIDATE.

Staunch Friend of Mr. LaFollette Argues that the Janesville Senator is Entitled, by All Considerations, to the Support of the District and Tenders His Best Endeavors.

C. R. Bridgman, of Darlington writes a column and a-half letter to The Republican-Journal in support of the gubernatorial candidacy of Senator John M. Whitehead. After speaking of the Janesville man's record and well known ability and worth, Mr. Bridgman says: "But there are other reasons (call them selfish if you wish, for our acts are all to a greater or less extent selfish) why Senator Whitehead is our logical candidate. But never but once in the last ten years has a name been selected from among the distinguished men of the First congressional district to be honored with a place on our state ticket. In 1892 Ed. Coe of Whitewater was the nominee of the convention for secretary of state, but in the disastrous results at the polls he went down in defeat with the rest of the ticket. Unfortunately for a number of years our political wagon has been tied to defeated candidates and as a result in the distribution of state patronage the territory of La Fayette county might as well have been erased from the map of Wisconsin so far as receiving any benefits of this distribution was concerned. This is all wrong. No part of the state has produced nobler or better men than the First congressional district and no locality has been more loyal to the party and its nominees.

Speaks of Mr. LaFollette "Unfortunately our country has been more loyal to its favored candidates than to its own interests, and it seems to me that wisdom dictates that we ally ourselves with the forces who are supporting the candidate who, in my opinion, will be nominated for the next governor of Wisconsin, Senator John M. Whitehead.

"In anticipation of the announcement of the candidacy of Mr. LaFollette, I am aware that the question will be asked, 'Why this change of attitude?' In reply to this I have to say:

"I have known Mr. LaFollette from his boyhood and no man has been more loyal to his friendship and political interests than I have been. Since the time of his first nomination for congress, I have been one of his most ardent supporters. Three times I stood with his admirers and witnessed his political defeat, and if, at any future time, he should be a candidate for any office with assurances of success, I shall give him my best services. Had he announced his candidacy for governor two months ago, I believe he could have held the First district practically solid.

Cannot Be Nominated.

"Should he announce his candidacy at this time, his support cannot help but be fragmentary at the best, and his assurance of success without a shadow of fact. Aside from this district, which I believe to be irretrievably lost to him, Waukesha county is ardently supporting Long Jones, while Trempealeau, Pepin and Buffalo counties are the avowed supporters of Ira B. Bradford of Augusta. With ninety more votes to gain than he had in the last convention in 1898, and with the fact confronting us of the disastrous inroads made upon his former territory, I have come to the conclusion that he cannot be nominated at this time under any circumstance.

"In conclusion I wish to say, that I believe party harmony to be of paramount importance at the present time, and in uniting upon the candidacy of Senator Whitehead, no faction will be called upon to make any political sacrifice and the difference of opinion will be amicably settled.

Tenders His Support.

"In the years past, in my loyalty to Mr. LaFollette, I have given him my best efforts without promise of pay or preferment, so at the same time with the same personal disinterestedness, I tender to Senator Whitehead my heartiest support and most earnest efforts. I have never asked office of the republican party; I have never asked preferment; I believe the party greater than any man, therefore, disinterestedly in the future as in the past, I pledge my fealty to what I believe are the best interests of the party, and I believe under the existing conditions that the plain duty of the republicans of Lafayette county is in allying themselves with the supporters of Senator Whitehead, giving him the solid delegation from the First District; then if we find it impossible to secure his nomination, the one hundred and twelve votes from this district, can dictate who shall be the next governor of Wisconsin."

"C. R. BRIDGMAN."

Indiana Real Estate Advances.

Oaxaca, Mexico, May 14.—The government troops under command of Gen. Bravo are making steady progress in their campaign against the Maya Indians. The government forces number over 4,000 men, and they expect to reach Chansanta Cruz, the principal city of the Indians, within the next few weeks. The Indians are resisting this advance and battles take place almost daily, but the casualties on the government side have been comparatively light. It is expected that the Indians will make a determined stand at Chansanta Cruz.

Potion for Her Offspring.

New York, May 14.—Mrs. Annie Gumbart, a widow, 35 years old, murdered her 7-year-old daughter Annie by giving her poison. Then she drank of the deadly potion herself, and in her death agony held the cup to the lips of her 4-year-old daughter Katie. The child spat out the drug because it was bitter and thus saved her life. The little one's screams brought help and the police. Mrs. Gumbart was an incurable consumptive and went mad from brooding over her approaching death.

APRIL TRANSFERS OF REAL ESTATE

Long Record From the Register of Deeds Office, Including All From April 1 to April 17.

The following transfers of Rock county real estate are taken from the records in Register of Deeds Rowe's office and include from April 1 to April 17:

RECORD OF THE TURKS

The Cruelties Resulting In Claim
Against Sultan's Empire.

GREAT SLAUGHTER RECALLED.

Interest In Mohammedan Atrocities
Committed Five Years Ago Renewed
by Latest Demand of the United
States—First Massacre Occurred In
Erzerum In June, 1890.

The prospect of the president enforcing his demand against Turkey for the payment of an indemnity of \$100,000 for the damages suffered by the American missionaries during the Armenian massacre five years ago renews interest in the atrocities which were committed at that time on the very threshold of civilized Europe, says the Chicago Post. It will be remembered that, fearing international complications, every nation was loath to take the first step toward checking the wholesale slaughter of defenseless people, and it remained for Clara Barton to compel the unspeakable Turk to listen to the voice of humanity and throw open the gates to the devastated country.

The massacres of 1895, during which the American property was destroyed, continued about six weeks. Never since the time the Christians were fed to the lions in the Roman arenas and bound to the stakes in their shirts of tar, transformed Nero's gardens into a burning forest of human sacrifice have such atrocious persecutions been witnessed as were enacted by the fanatical Moslems within the bounds of the Ottoman empire in 1895.

For 600 years the Armenians were the most submissive subjects of the Turkish empire and paid tribute as a penalty for not accepting Islam. With the accession of the present sultan a series of oppressions was begun. The cruelty continually increased until it terminated in the reign of terror and the awful carnival of death.

The leading bankers and merchants of the country were the Armenians, and they were the most prosperous of the non-Mohammedan races. Sultan Abdul Hamid lost Bulgaria because of its growth and its rapid advance toward a more perfect civilization and the spread of the European ideas of liberty. To this advancement are attributed the massacres. The sultan, realizing that civilization would loosen his grasp upon this peaceable, prosperous people and goaded by jealousy of their progress, instituted the series of massacres as the easiest method of retaining their complete submission.

The first massacre occurred in Erzerum in June, 1890. The Armenians of that city were accused of making rifles and cannon in a small machine shop which was a part of the manual training department of a high school. Turkish officials at once placed a cordon around the school, but found nothing. Then, in a search for the weapons, they desecrated the Armenian church, and when the people assembled to pray and mourn the desecration they were set upon by the Turkish soldiers, and 12 were killed and more than 300 wounded.

This massacre was followed at intervals by others, until a commission representing France, Russia and England demanded that certain reforms be granted in six Armenian provinces—Van, Erzerum, Siivas, Karpis, Bitlis and Diarbekir. These propositions were resisted under various pretexts for four months, at the end of which time the emperor acceded to the spirit of the notes and appointed Shakh Pasha high commissioner to carry them out. The granting of these concessions marked the beginning of the latest most bloody chapter in Armenian history.

During the time the sultan had the reforms under advisement the Rosebery ministry ended and Salisbury was appointed premier. From May 11, when the scheme of reforms was presented, until Sept. 30 no massacres occurred, and the time was occupied with the consideration of the reform measures and the petitions of the Armenians. Sept. 30 a large number of Armenians in Constantinople went to the porte with a petition for redress of grievances. They were attacked by police on the way, and a major of police and about 80 Armenians, of whom one was a woman, were killed. Those of the Armenians who escaped this first assault were taken prisoners and later put to death in cold blood.

Another change was made in the Turkish ministry, and Bahri Pasha was fired upon in Trebizond. This was followed Oct. 8 by the massacre of Trebizond, and following this all Armenia was turned into a scene of slaughter. The massacres in the Karpis district were the most terrible. More than 170 towns were destroyed, and men and women were killed by thousands. The men had no means of defense, and the women were cut to pieces when they tried to defend their children and their honor. The greatest cruelty and loss of life were in the massacres of Aibost, Arakir, Chukush, Diarbekir, Henu, Husenik, Kouk, Malatin, Peri and Shelnajil.

Following is a summary of the Karpis district atrocities:

Killed	30,631
Burned to death	1,436
Preachers and priests killed	51
Died from starvation	2,461
Died unprotected in the fields	4,340
Died from fear	669
Wounded	8,000
Houses burned	28,543
Forcible conversions	15,066
Women and girls abducted	6,346
Forcible marriages	1,551
Charities burned	1,231
Destitute and starving	94,750

The number of slain in the various massacres were:

Place and date	Killed
Trebizond, Oct. 8 and Nov. 24	100
Van, Jan. 1, 1896	600

Erzerum, Oct. 30	400
Pasov, Nov. 27, 28	140
Ova district, Nov. 27, 28	20
Erzingan, Oct. 21	600
Balburt, Oct. 21	1,350
Baghi, Oct. 14 and Oct. 21	500
Bitlis, Oct. 25	800
Moush, Nov. 15	50
Kurpat, Nov. 20, 11	200
Arakir, Nov. 1-5	2,500
Malatia, Nov. 4-6	5,000
Diarbekir, Nov. 11	1,101
Sivas, Nov. 12	1,500
Gurum, Nov. 12	1,000
Kara-Hissar, Nov. 1	8,000
Zilleh, Nov. 28	200
Amassia, Nov. 15-18	1,000
Mersovan, Nov. 15	160
Vozir-Kempur, December	200
Ainab, Nov. 15-17	1,000
Orfa, Oct. 27, 28	5,000
Marash, Oct. 23	40
Marash, Nov. 3	250
Marash, Nov. 18	1,000
Palma, Oct. 27	800
Chakassia, Oct. 30	1,000
Ak-Hissar, Nov. 3	50

It was feared that if a man-of-war were sent to Turkey to enforce the claims the Turks would be provoked to a renewal of their persecution of the Christians, and this would result in loss of life among the missionaries. The latter, however, are willing to take the risk, and letters are received every day from missionaries by government officials imploring the government to compel the sultan to keep his agreement and pay over the indemnity which he has recognized as just. The missionaries say that, while it is possible that a demonstration on the part of the United States would provoke Turkey into retaliation which would result in the loss of life and destruction of property, the results would be beneficial to their cause, as it would show the Turks, who fear nothing but force, that behind them the missionaries have the support of a nation that will not endure trifling.

Cholera Kills In Famine Camps.

London, May 14.—The Bombay correspondent of the Times says: "The cholera continues to rage in the famine camps. There have been 400 deaths in three days at Mandivee and so numerous are the cases at Godra that it is impossible to collect the bodies. These lie for days in the sun. The people have fled and cannot be induced to return. A similar state of things prevails at Broach."

Hundreds Chase Murderers.

Emporia, Kan., May 14.—Hundreds of men, on foot, on horseback and in all kinds of vehicles, are scouring Neosho valley for two bank robbers, James Murphy and E. F. Estell, who Saturday night murdered Deputy Marshal Edward Roberts of Dunlap.

President Olaf May Dead.

Rock Island, Ill., May 14.—Dr. Olaf Olsson, president of Augustina college, died here of cancer of the stomach. He was 59 years of age. His connection with the college began in 1876. He was elected president in 1891.

Joliet Steel Mill Reopens.

Joliet, Ill., May 14.—Eight hundred men who have been idle for two weeks went back to their work at the Illinois Steel company this morning.

Homeseekers' Excursions Via C. M. & St. P. Railway

Social Democratic Ticket.

Chicago, May 14.—The Illinois state convention of the social democratic party, held in Arena hall, in 65d street, Sunday nominated the following ticket: Governor, James Beattie, Springfield; Lieutenant-governor, A. J. Pearson, Jacksonville; secretary of state, Thomas G. Kerwin, Chicago; state treasurer, Jacob Wimen, Chicago; auditor of public accounts, James Wright, Chicago; attorney-general, Charles H. Soelke, Chicago; trustees, Mrs. Irene Stedman, Miss Ellen Edwards, F. J. Elavack.

Filipinos Gain Strength.

Hong-Kong, May 14.—The Filipino junta has been receiving large amounts of money at Manila. Within the past three months three ship loads of arms have arrived here from Germany for the insurgent cause. The junta gave a big banquet here last night in honor of the reorganization of the native government. The Filipinos claim that they will open aggressive hostilities just as soon as the rainy season begins.

Cleveland Machinists Yield.

Cleveland, O., May 14.—In the shops of the Kilby Manufacturing company, the Varley Iron works, Chisholm & Moore, the Otis Steel company and the McMyer Manufacturing company, the strike of the machinists, which was in progress for two months, has been declared off. The men return to work pending arbitration of their demands.

Don't Wait too Long.

Don't neglect your heart! If it throbs or palpitates, skips beats or causes pain in the left side, shoulder or arm, it is weak and needs attention. Don't wait until you fall down at your work! Don't delay until your doctor says your time on earth is short—that you must be left alone—that you may die of heart failure at any moment. Dr. Miles' New Heart Cure strengthens the heart muscles and regulates their action; it stimulates the digestive organs and makes the blood rich and red and pure.

"At times my heart would almost stop beating; at other times it would palpitate and throb so that I could hear it beat against my breast. When I consulted my physician he said I should not venture away from home alone. I was unable to perform any labor, but when I commenced taking Dr. Miles' Heart Cure I grew stronger at once. I continued its use, together with Dr. Miles' Nerve and Liver Pills and now I can attend to my business and enjoy good health."

ABRAHAM JACKSON, Versailles, O. Dr. Miles' Heart Cure is sold at all druggists on a positive guarantee. Write for free advice and booklet to Dr. Miles Medical Co., Elkhart, Ind.

For ladies and gents, at reasonable prices.

E. HALL.

55 West Milwaukee Street.

Edwin F. Carpenter's Attorney.

STATE OF WISCONSIN—In Circuit Court for Rock County—Lizzie Isaacson, plaintiff, vs. Fred W. Isaacson, defendant.

The State of Wisconsin to the said defendant: You are hereby summoned to appear within twenty days after service of this summons, exclusive of the day of service, and defend the above entitled action in the Court aforesaid; and in case of your failure so to do, judgment will be rendered against you according to the demand of the complaint.

Dated April 2nd, 1900.

EDWIN F. CARPENTER, Plaintiff's Attorney.

P. O. Address, Janesville, Rock County, Wisconsin.

This original summons and complaint in the above entitled action was on the 2nd day of April, 1900, duly filed in the office of the Clerk of said Court at the Court House, in the city of Janesville, in said county and state.

EDWIN F. CARPENTER, Plaintiff's Attorney.

moap2d7w

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N.Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation.

With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

CANCER Cannot be Cut Out or
Removed with Plasters

Surgical operations and flesh destroying plasters are useless, painful and dangerous, and besides, never cure Cancer. No matter how often a cancerous sore is removed, another comes at or near the same point, and always in a worse form. Does not this prove conclusively that Cancer is a blood disease, and that it is folly to attempt to cure this deep-seated, dangerous blood trouble by cutting or burning out the sore, which, after all, is only an outward sign of the disease—a place of exit for the poison?

Cancer runs in families through many generations, and those whose ancestors have been afflicted with it are liable at any time to be stricken with the deadly malady.

Only Blood Diseases can be Transmitted from One Generation to Another

—further proof that Cancer is a disease of the blood.

To cure a blood disease like this you must cure the entire blood system—remove every trace of the poison. Nothing cures Cancer effectually and permanently but S. S. S.

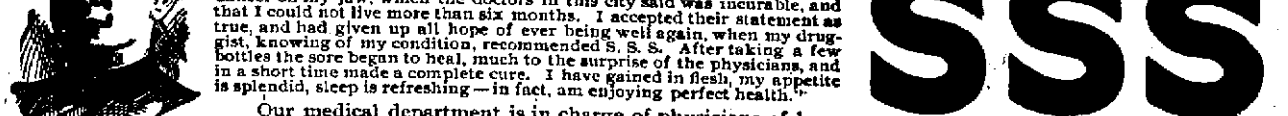

S. S. S. enters the circulation, searches out and removes all taint, and stops the formation of cancerous cells. No mere tonic or ordinary blood medicine can do this. S. S. S. goes down to the very roots of the disease, and forces out the deadly poison, allowing the sore to heal naturally and permanently. S. S. S. at the same time purifies the blood and builds up the general health.

A little pimple, a harmless looking wart or mole, a lump in the breast, a cut or bruise that refuses to heal under ordinary treatment, should all be looked upon with suspicion, as this is often the beginning of a bad form of cancer.

Mrs. Sarah M. Keesling, 94 Windsor Ave., Bristol, Tenn., writes: "I am 41 years old, and for three years had suffered with a severe form of Cancer on my jaw, which the doctors in this city said was incurable, and that I could not live more than six months. I accepted their statement as true, and had given up all hope of ever being well again, when my druggist, knowing of my condition, recommended S. S. S. After taking a few bottles the sore began to heal, much to the surprise of the physicians, and in a short time made a complete cure. I have gained in flesh, my appetite is splendid, sleep is refreshing—in fact, am enjoying perfect health."

Our medical department is in charge of physicians of long experience, who are especially skilled in treating Cancer and other blood diseases. Write for any advice or information wanted, we make no charge whatever for this service.

THIS DAY IN HISTORY.

1205—Alighieri Dante, poet, born in Florence; died in Ravenna 1321.
1680—Gabriel Daniel Fahrenheit born; died 1736. Fahrenheit was a distinguished physicist and mechanician. He perfected in 1724 the thermometer which bears that name. Dr. Jenner, the United States, Holland and Great Britain.
1787—Dr. Edward Jenner finished his experiment proving the power of vaccination.
1871—Robert Owen, philanthropist and social reformer, born in Wales; died there 1853.
1787—Convention met in Philadelphia to form the federal constitution.
1857—Lysander Spooner, known as "The Father of Cheap Postage" in the United States, died in Boston; born in Athol, Mass., 1805.
1864—Professor Henry Morley, English lecturer and writer, died in London; born 1822. Louis Clovis Bonaparte, grandnephew of Napoleon, died in London; born 1852.
1897—Max Martek, the well known operative manager, died on Staten Island, N. Y.; born 1821.
1890—M. Francaque Sorey, famous French dramatic critic, died at Paris.

CAUSE AND EFFECT.

The story came to the ears of The Gazette some days ago, that it was the intention to renew the lighting contract, without receiving bids, for a longer term of years, and probably at a higher price.

Accordingly a representative of The Gazette interviewed a member of the lighting committee. The alderman in question said that he favored a more extended contract, was against the plan of advertising for bids, and thought a higher price would be but right.

The council, he said, was willing to be "good fellows" to the gas company and that "The Gazette should have the city printing at a price where it could make something on it." When he was informed that The Gazette didn't care what the gas company got and had put in a bid for the city printing at the legal rates, and didn't care whether or not it was accepted, the alderman declared that he was "ready for a fight on the lighting question anyway."

This being the case, The Gazette concluded that if the private interest was so well represented, it was about time that someone espoused the cause of the city. Hence, the alderman got the fight he was ready for, and the people can judge of both "cause and effect."

Whether or not this alderman spoke for the whole committee and the council, remains to be seen, but it is said that the plan is opposed by some of the members of the committee. These members are said to favor advertising for bids, and doing business on a business basis, as representatives of the people, and having the people's interests in view. The advice of these members should prevail, for obvious reasons.

Why should the idea of honest competition, honest measure of value received, and a contract that is explicit and binding be opposed? Why should the city's established system of doing business—the receiving of bids—be discarded?

When the city buys coal, it not only receives bids, but the lowest bidder for the kind and quality of coal wanted gets the contract—and the weights are guaranteed by the city weigher. Why should a lighting company be more favored than the coal, lumber, sewerpipe, cedar block, paving, macadamizing and printing firms—all of which are required to bid in competition?

The Gazette does not care what kind of light is used, but it is opposed to extravagance, favoritism, and "good fellow ship"—whatever that may mean. All The Gazette wants, as all who have followed the discussion know, is free, fair dealing, and a reduction of the lighting expense in order that we may have needed improvements such as a city hall and library building, a police force and sewerage. It matters not whether the money is saved by reducing the number of lights, cutting the price per light, or using another kind of lights, so long as the reduction is made. The interests of the electric company, which has drawn somewhere near \$100,000 from the city treasury since its lights have been in use, or the gas company which has drawn nothing, should not be considered at all in the discussion of what is best for the city to do.

The methods adopted in this matter are clearly open to the criticism that was invited; the subject of reasonable expense in comparison with other city departments is debatable, and the right of the people to be heard and to know what is going on, is admitted.

Some people appear to be very anxious to get this thing settled. The contract will not expire until July, yet the committee has the whole thing in its hands early in May and can do as it sees fit as to the length of the contract, the price to be paid, etc.

It is doubtful if the committee, however, will act under its sweeping author-

ity. The council should follow established business principles, and treat the lighting contract as it treats other contracts—openly, fairly and above-board.

Advertise for bids, gentlemen, open them at a council meeting and do the best thing for the people. Then no one can criticize your methods. Otherwise—well, what can you say?

The Evanston lamps are operated only 3,000 hours a year, while in Janesville the street lamps run over 4,000 hours a year; \$60.00 a year for each lamp running 3,000 hours is the same as \$80.00 a year for a lamp running 4,000 hours—Recorder's "inspired editorial."

The Evanston clerk's letter did not state this point, but take the Recorder's own statement: \$80 a year for Evanston's 2,000 candlepower arc lights is equal to \$48 per year for a full 1200 candle power lamp. Will the local company agree to furnish full 1200 candle power lights at that price? Or will it refuse, ask for \$65 per light, but still claim that "Janesville is the cheapest lighted city in the country?"

The ex-lower taxation organ tries to get around the Evanston lighting contract by saying a two thousand candle power lamp, at \$60 a year—equal to a 1200 lamp at \$36 per year—is not as good as a 1200 candle power lamp at \$65 a year. The ex-lower taxation organ is right. The Evanston lights are not as good as the Janesville lights—for the contractor. The ex-lower taxation organ doesn't care for the taxpayer.

Attorney Wheeler naturally feels slightly elated over winning that damage suit. Few juries return a verdict for the defendant in actions of this character, although many plaintiffs should lose. Sympathy for the unfortunate should always be shown, but mercy should only temper justice—not displace it.

Governor Scofield's suggestion of Henry C. Payne for vice president has met with much favor. No Wisconsin republican is better known, and does not the good Badger state deserve such an honor? Mr. Payne has had wide experience in politics and public affairs, and would fill the high office of vice president with credit.

The ex-lower taxation organ charges The Gazette with "trickery" in publishing the letter from the city clerk of Evanston. The letter speaks for itself and goes for what it is worth—and the ex-lower taxation organ appears to recognize its worth, because it cannot answer it. Hence it adopts "you're a liar" arguments.

How much enthusiasm in supporting the \$12,000 per year lighting expense, would the Recorder show if the "trust" it so often refers to had bought the local electric plant when the same was offered for sale—franchise, contract and all?

Some people's enthusiasm all runs in one direction, while others take in the whole situation. What three "comforts of a city" would be better for the town than a modern city hall, a modern police force, and a sewerage system?

Coal may be a dollar a ton cheaper in Evanston—where lights that cost us \$65 a year each, can be had for \$36—but we submit that Wisconsin water power is still cheaper than Evanston coal.

Let us pay for what we get, get what we pay for, have plenty of it, and of the best of everything; but permit no extravagance—practice wise liberality and frown on spendthrift policies.

The Recorder's willingness to "leave the matter to the aldermen to decide" is only equalled by its willingness to devote more space to the subject each day.

The Hon. Mr. Corbett now asks for another "one more chance."

NEW RELIGION IN LUZON.

According to Its Doctrine, Its votaries Need Not Work.

A new religion has been started in Luzon, and some people think it will lead to trouble. Its main doctrine releases its followers from the necessity of working. The supreme being to whom prayers are directed will, it is declared, provide sustenance to all true believers. The religion is therefore attractive to the Filipino, who does not do any more work than is necessary to keep himself in rice, cigarettes and betel nut anyway.

A man named Gabini started the religion, and its votaries are known as Gabinists. Gabini and several of his deacons, or chiefs, were quietly and informally shot by the Spanish authorities at Apalit. The new creed was not stamped out, however, for Gabini's chief clerk, Felipe Salvador, took it up, says the New York Sun. After doing a little service in the Filipino army Salvador now devotes himself to extending the faith. Wonderful stories go abroad concerning miracles Salvador has performed. Sick people are carried to him to be cured, and if they die under his treatment it is said they were not sincere in their faith.

The Gabinistic religion as nearly as can be learned is very simple. The people gather and pray long and earnestly to an invisible supreme being who is supposed to provide food to his faithful subjects in some miraculous manner and to perform cures. The chief duty of the believer is to make at least one pilgrimage a year to the main shrine, which is located five miles above San Luis, on a dry spot in the

prairie, or swamp, of Canaúa. Here Salvador has had a church erected. It is an imposing affair of bamboo and nipa thatch, rudely furnished with a few seats.

Salvador styled himself "general," and by this title he has been called. It was at the suggestion of several people of the village of Balingay that General Otis at last gave orders to have Salvador placed in custody. This happened about two months ago. His church was not molested, and neither were his services, which went on again after a slight interruption, a new general being installed in the person of Salvador's chief clerk. Salvador's arrest was due to a belief that as an insurgent leader he was simply inciting the people to fresh outbreaks. In addition to the church general there are several chiefs. It is the main duty of these chiefs to collect the fees which are regularly exacted from all believers.

At the present time the Gabinistic church is thriving wonderfully and growing every day. Planters complain that it is taking away their laborers. It is said the new church has now at least 10,000 members. The members seem to be little affected at the removal of Salvador, for they believe his body consists of two parts, one a material and one a spiritual part. The material part is of course confined in Manila, while the spiritual part returns to pray with the congregation at intervals.

The sick people who are carried to the shrine on litters are expected to make a complete confession of their sins, whereupon they become cured. If the cure does not follow, it is a sign the patient has not made full admission of his shortcomings and therefore cannot be forgiven.

The Daily Gazette

EX-ALD. W. H. JONES
WRITES OF LIGHTS

FORMER CHAIRMAN OF COMMITTEE HAS A COMMUNICATION.

Suggests a Price of \$50 per Lamp, and Frequent Tests by the City Electrician—Some Statistics Presented—Length of Contract Determines the Cost.

Ex Alderman W. H. Jones, who was chairman of the lighting committee when the present contract was made, has some suggestions to make on the subject of city lighting. The ex-alderman is in error as to the ground The Gazette occupies. The Gazette has not said that "Janesville lighting costs more than any city of anywhere near its size," but that "Janesville spends more for lights"—that its lighting fund is larger "than that of any city of anywhere near its size"—quite a different proposition.

With reference to the bearing of the length of the contract on the price, Mr. Jones is correct—an exceptionally low price would entitle the contractor to a long time contract and vice versa.

Mr. Jones errs as to the required candle power of the Janesville lights. The contract, on this point, reads as follows:

"The said Norcross agrees to furnish to and for the city of Janesville one hundred and fifty-six (156) are lamps of the same kind, quality and candlepower as those now in use in said city," etc., etc.

No mention of a stated candle power is made, and lawyers say that the contract requires no stated candle power to be furnished. Perhaps the ex-alderman will remember that The Gazette tried to get information as to "the lights now in use," but could not do so. Tests were made, but the men who made the tests made no report, or if they reported, the report was suppressed. At that time the ex-alderman, if we mistake not, insisted that the lights were all right as to candlepower. Now, however, he thinks they may be of less power, and suggests frequent tests—the reports of which might never reach the public. As to price, Mr. Jones suggests a price of \$50 each per lamp, which is an admission that \$35 per year, per lamp is too high.

What the Figures Tell.

Mr. Jones also give a list of cities and the price they pay, etc. The figures give some interesting information. In the first place they do not agree with the figures in The Recorder's "inspired editorial" of recent date. But both The Recorder and Mr. Jones, by their figures, prove that The Gazette is right—Janesville spends more for light, because Janesville has more lamps than any other city of anywhere near its size. The cities that have a lighting fund, according to the returns received from various city clerks when taxation was the subject under discussion last November, are La Crosse, Superior, Madison, Ashland, Green Bay and Janesville. The cities of Oshkosh, Marinette, Fond du Lac and Watertown pay for the lights from the general fund or water fund. We received no returns from Appleton, Racine, Sheboygan, Eau Claire, Chippewa or Stevens Point. The Recorder's figures show the following facts:

City.	Fund.	Price.	Candle power.	No. of lamps.
Ashland	\$1,097	\$108	1200	12
Madison	10,000	80	1200	115
Monroe	4,311	72	2500	61
La Crosse	20,000	85	2000	236
Janesville	12,000	65	2000	157

Janesville spends more money for lights, as will be noted, than any city except La Crosse, which is more than twice the size of Janesville. Have we not an extravagant number? Now take Mr. Jones' figures:

City.	Fund.	Price.	Candle power.	No. of lamps.
La Crosse	\$20,000	\$ 85	2000	236
Superior	13,000	145	2000	90
Madison	10,000	80	1200	115
Ashland	6,097	132	1200	50
Green Bay	9,000	72	2000	127
Janesville	12,000	65	2000	157

Thus, Mr. Jones shows us, too, that Janesville has a larger number of lights "than any other city of anywhere near our size." Are we not extravagant?

Now, how do the prices on 2,000 candle power lights, running all night, compare with the price that Janesville pays? Mr. Jones says Sheboygan, Eau Claire, Superior, Ashland, Chippewa Falls and Stevens Point use 2,000 candle power lamps, running them all night, at stated prices. The average of these prices is \$102 per lamp of 2,000 candle power. At this price, 1,200 candle power lamps should have been run during the past three years for \$61.20 each, yet Janesville paid \$65 for a larger number than the other cities had, too. Janesville paid a higher price, therefore, than was the rule, regardless of the fact that a large number can be furnished cheaper than a small number. Has Janesville been "the cheapest lighted city in the country," or has she been extravagant? Has she not paid too much, and for too many lights that "may be under power," and "should be frequently tested?"

The figures given by The Recorder's inspired editorials and the ex-chairman of the lighting committee appear to prove the case. If other cities are to be the standard, the council should not only reduce the number of lights, but demand a lower price. Mr. Jones' figures, show that the average in the table above, including La Crosse, population 35,000, and Superior, 45,000, is but 126 lamps for each city.

La Prairie Sunday School

La Prairie Sunday school opened up in good style yesterday in Grange hall. The children with bright and happy faces elected the following officers: Charlie Howard, superintendent; J. T. Atkinson, assistant superintendent; Miss Lloyd secretary and treasurer; Miss Cummings, organist.

MR. JONES FIGURES
PROVE THE CLAIM

JANESVILLE EXTRAVAGANT IN STREET LIGHTING.

Has More Lamps Than Other Cities, Yet the Price Has Been More Than Other Cities Paid in Proportion—Ex Chairman's Statements Appear to Prove Gazette's Contentions.

Editor Gazette.—The lighting question seems to be burning at both ends. If the Recorder states that "Janesville has been the cheapest lighted city in the country," and the Gazette says that "Janesville's lighting costs more than any city of anywhere near its size in the state," the people must look for some middle ground for more definite information. Let us look first at the letter from Evanston printed in the Gazette of Friday, the 11th inst:

The Janesville Gazette, Janesville, Wisconsin.—Gentlemen: In your favor of May 8th, will say that the city of Evanston recently made a contract with the Evanston Electric Illuminating company for not less than 255 lights of 2000 candle power, 432 Watts measured at the lamp, at \$60 per light per year at flat rate. The contract is for ten years. There was no other bid submitted to the council, as the Evanston Electric Illuminating company is the only established electric lighting company in the city. The population of Evanston is 25,000 inhabitants. The annual appropriation for public lighting for the year 1903 is \$15,731.40. Yours very truly,
JOHN F. HAHN,
City Clerk.

Note that it says "for not less than 255 lights." This is stipulated by the electric company; if a less number of lights were to be contracted for the price per light would be higher than \$60, for like any other commodity, one can generally make better bargains for a large quantity than for a small amount; also a long-time contract has a tendency to get a lower price than for a short time. This is for ten years, Janesville is for three years.

One thing that has an important bearing on the price is the number of hours the lights are run, which is not mentioned at all in the above letter. Furthermore this is a recent contract and cannot be fairly compared with contracts made three years ago, and does not prove that Janesville contracted for lights at a high figure. We can make closer comparisons in our own state. Just before the Janesville contract was made inquiries were sent to clerks of a number of Wisconsin cities to ascertain their prices for lights. Answers were given from the following cities, with no light on moonlight nights:

City.	Light per year.	Candle power.
La Crosse	\$85	2000
Calumet	70	2000
Marquette	84	1200
Appleton	80	1600
Fond du Lac	84	2000
Watertown	86	1200
Racine	70	1200
Sheboygan	75	2000
Eau Claire	75	2000
Superior	80	2000
Madison	80	1200
Ashland	132	2000
Wausau	80	2000
Chippewa Falls	75	2000
Stevens Point	75	2000
Green Bay	75	2000
Kenosha	80	2000
Beloit	75	2000

In the above list there are all kinds of prices and hours to run. Those marked no light on moonlight nights means that there was no electric lights when the almanac read moonlight, no matter if the weather was cloudy or not. The Janesville contract was made for \$65 a light, 1200 candle power, all night every night of the year, for 156 lights or more. Here is another instance of not less than a certain number of lights. If for a less number the price per light would have been more than \$65 for the reason already mentioned. Your readers can compare this contract with cities named in the above list and easily see whether Janesville pays a high or low price for lights. Before and after the contract was made the writer talked with several electrical engineers who are conversant with arc light prices in different states and all said this contract price was low. But I am satisfied that the candle power at times falls short of the required amount. This can be corrected by authorizing the city electrician to test the lights frequently and report to the council, and a reasonable reduction made for loss in light. As for reducing the number of arc lights, I think there would be more objection by the people to that than has ever been over the price of lights.

About three years ago each member of the lighting committee endeavored to find out from his constituents who would have been willing to have taken out the electric lights adjacent to their residences. On comparing notes nobody wanted them taken out. I suggest this would be a good way to have the people feel about it at the present time. There are now 154 arc lights at a total cost to this city of \$10,205 per year. There are several spots that would be improved by more light, and instead of reducing the number of arc lights the writer would much prefer to increase it, for about the same total price. Add fifty more lights, making 204 in all. If a contract could be made at \$50 per light, it would amount to \$10,350 per year. Then there would be less need of gasolene lamps, and would really be the best, and "cheapest" lighted city in the country," for the number of arc lights and population.

W. H. JONES.
Janesville, Wis., May 14, 1900.

MUNICIPAL COURT BUSINESS

Three Local Drunks Were Before the Court This Morning.

Three drunks were before the municipal court this morning. John Maxwell was fined \$1.40 or ten days in jail. Frank and Thomas Donegan, brothers, were fined each \$3.30 or seven days in jail. The case of the state vs. Earnest Byers was adjourned till next Monday.

LAUREAN SOCIETY ENTERTAIN

At the Park Place Home of Miss Elizabeth McKey.

Saturday evening at the Park Place home of Miss Elizabeth McKey members of the Laurean society entertained in honor of retiring members. The guests of honor are soon to graduate from the High school and were as follows: Misses Jessie Spellman, Lillian Mount, Sarah Sutherland, Ethel Sayre, Jeanette Sayre, Margaret Jackman, Eloise Nowlan and Retta Whiton. Owing to the recent death of her father, Miss Whiton was not present.

The following six members were initiated into the order: Misses Helen Estes, Alice Estes, Mary Buckmaster, Winnifred Fifield, Alice Harper and Belle McGregor.

A banquet was in order and the occasion proved one long to be remembered.

CASH FOR JUNGBLUT FAMILY

Committee Goes to Work and Secures Considerable Money.

John Jungblut and family have been presented with a purse consisting of \$129.80. Mr. Jungblut is the teamster who was badly injured on Friday. The money is for a good cause and those who have so kindly donated can rest assured that they have done a good deed. A committee consisting of Joseph Shields, Peter Noues and A. C. Munger raised the cash.

PATENT VALUABLE MACHINE

Local Well Known Men Are at the Head of New Device.

This morning at the Decker farm on Milton avenue many people witnessed a successful test of a combined clod crusher, pulverizer and land roller, made by Harry Davenport and Lewis Neilson of this city. It is claimed that the new invention will break up all clods of earth, pulverize the soil and put it in condition so that it is ready for planting. All the work is done by simply going over the ground once with the machine, where it has been necessary to go over it several times with all previous devices.

MAY SETTLE WITH SELLECK

Members of the Common Council Meet This Evening.

This evening a meeting of the common council is scheduled. It is said that a settlement is likely in the case of Alfred Selleck vs. the City of Janesville. Selleck sues for \$5,000 for his wife's services from the reason of an accident caused by a fall on an alleged defective sidewalk.

NEWS OF A PERSONAL NATURE

Dr. W. H. JUDD spent Sunday in Chicago.

MICHAEL HAYES was here from Chicago to spend Sunday.

Mrs. KENDRICK of St. Louis is the guest of her daughter, Mrs. R. C. Denison.

Miss J. F. Sweeney has been engaged to play the organ at the Presbyterian church.

Miss Mary Hickey, of Milwaukee, spent Sunday at the home of her parents in this city.

ELMER BARKER is home after a successful trip on the road for the Janesville Hay Tool company.

MARK BOSTWICK left this morning for an extended trip through Iowa as traveling salesman for a large clothing firm.

LONG COACHING TRIP.

Mr. J. J. Phelps to Drive 2,000 Miles with One Team of Four Horses.

Four years ago Mr. John J. Phelps of Red Towers, on the Hackensack, made the longest coaching trip on record with one team of four horses, covering a fraction more than 800 miles in New Jersey, New York and Connecticut. He is now preparing, according to a Hackensack dispatch to the New York Sun, to at least double that distance, and he may make it 2,000 miles. For this purpose he recently purchased four fine sorrels, well matched, even gaited trotters, rather light in weight, but said to be of good blood and endurance. These he is now training for the long trip, which he expects to begin about the first week in June.

Mr. Phelps has mapped out an itinerary of about three months, carrying him through northern New Jersey, across New York from Greenwood Lake to Middletown, Liberty, Hancock, Oswego, Birmingham, Ithaca, the lake region to Niagara Falls. Crossing to Canada he will visit Toronto, following the lake and St. Lawrence river to Montreal. Here he will recross to the United States and take in important points in Vermont, Massachusetts and Connecticut, returning by way of New York city.

Mrs. Phelps expects to accompany her husband throughout the long drive, and friends from Hackensack, New York city and elsewhere will be guests during various stages. The vehicle will be a strong break specially arranged with a view to comfort.

Telephones!

The Rock County Telephone Exchange

Has nearly THREE TIMES AS MANY subscribers as the old company. Every phone is a "long distance" instrument.

For 5 Cents per day you can connect your residence with 630 telephones in Janesville. Patronize the home company.

A. E. ADAMS, Manager.

ICE CREAM DEALERS
RAISE THE PRICE

ALL LOCAL RETAILERS DECIDE ON FORTY CENTS A QUART.

Shurtleff Raised the Wholesale Price Claiming That He Was Obligated To—No More Twenty-five Cent Ice Cream in Janesville—Wholesale Manufacturers Agree Not to Retail.

Ice cream at prices ranging all the way from twenty-five to forty cents a quart is a thing of the past in Janesville. Local retail dealers have met and agreed on one price for the coming summer.

That price is forty cents a pound. The local retailers claim that they were obliged to take this action as the wholesale prices to them has been raised by the manufacturers.

G. A. Shurtleff & Company of this city have of late raised the price and the retailers claim that they were obliged to take this step for the reason that all material to them has taken a sharp advance in price. Manila beans have advanced two dollars a pound and sweet cream and sugar have gone up in price. Said a local dealer this morning: "All the Janesville restaurant men have agreed to place the price at forty cents a quart for the coming summer. Whether or not any of the dealers will see fit to break this price remains to be seen. I don't see how they can and make any money."

JOHN CONLEY DIED
AFTER BRIEF SPELL

Stricken With Paralysis on Saturday He Died Yesterday—Has Resided Here Many Years.

John Conley, a resident of Janesville for the past forty-four years, died yesterday afternoon at 4:05 o'clock at his home 302 South River street. Saturday Mr. Conley was stricken with paralysis and his illness grew worse instead of improving.

He leaves a wife and seven children. The children are: Mrs. John Eddy, Miss Kate Conley, James and Thomas J. Conley of Janesville, Mrs. Martin Thompson, Mrs. John Dougherty and Michael Conley of Chicago. Four sisters are also left. Notice of funeral later.

G. A. Kady

G. A. Kady, a former resident of Beloit, died yesterday at the county farm. Mr. Kady was an inmate of the poor house and was about seventy years of age. He has been at the county farm a long time.

Another Reduction in Farm Work.

William Duthie of the town of Bradford, eight years ago purchased a Kemper patent manure spreader from O. H. Belding and has used it continuously ever since. He has a very large farm and it became necessary to purchase another of these machines which he did last week. The new machine cost \$125 and has been on exhibition at O. H. Belding's ware rooms on North River street the past few days. A boy and team will do the work in one day of two men and teams and a complete better results to say nothing of the saving in labor.

On Every Bottle

Of Shiloh's Consumption Cure is this guarantee: "All we ask of you is to use two-thirds of the contents of this bottle faithfully, then if you can say you are not benefited return the bottle to our druggist and he may refund price they paid." Price 25 cts., 50 cts. and \$1.00. Sold by J. P. Baker.

Stamped Linen
AND
Art Goods Sale.

For the balance of this week we shall offer the above goods at greatly reduced prices. This will be a buying event that will make you remember our store. Don't miss it. The following is a partial list of the bargains:

JANESVILLE FLORAL CO

HOUSE WILL SOON ADJOURN.

Body Will Have Its Business Out of Way About June 1.

NEW STORM-WARNING TOWER.

Improved Method of Issuing Signals from Marine Ports—One-Half of the 300 Display Stations to Be Equipped During the Coming Year.

Washington, May 14.—The house will be ready for adjournment as soon as the senate passes the general supply bills, the general deficiency and appropriation bills and adjusts the differences between the two houses upon those already passed or pending in conference. The house leaders say they will be ready for the sine die adjournment June 1, but, allowing for delays and accidents incident to the closing up of the session, they are not inclined to think both houses will be ready to quit before June 10. Later on, if complications arise in the senate, the house may emphasize its readiness to adjourn by adjourning over from day to day while the senate is in the final throes of dissolution.

The senate has resumed consideration of the naval appropriation bill. Senator Chandler has given notice that he will call up the Clark case on Tuesday.

New Iron Storm-Warning Tower.

Washington, May 14.—Realizing the great value of the storm warnings of the weather bureau in the saving of life and property, Secretary Wilson has directed that careful experiments be made with the view of adopting an improved method of issuing warning signals from marine ports. With the co-operation of several important manufacturing establishments, a new iron storm-warning tower has been constructed and adopted by the secretary. This tower, being constructed in sections, can be extended to a greater or less height in accordance with the visual conditions of different ports. Near the top of the tower two powerful French Fresnel lens lamps are located, from which day signals are to be displayed. Congress, in accordance with the recommendations of the secretary, made an appropriation sufficient to equip one-half of the 300 display stations of the bureau during the coming year. Secretary Wilson has directed the chief of the weather bureau to distribute these new towers as equally as possible between the lake and sea ports.

Germany Not Ready to Fight.

Washington, May 14.—It is the belief of well-informed department officials here that Germany will heed the warnings given her by Secretary Root and Senator Lodge by more strongly urging the passage of the bill providing for the increase of the navy desired by the German emperor. It is thoroughly appreciated that Germany is not now ready to take any action which will involve her in war with the United States, and the administration does not expect trouble before the German fleet has been very largely increased.

Defects in Shipping Subsidy.

Washington, May 14.—The minority report on the shipping subsidy bill, opposing that measure, has been filed in the house of representatives by the majority of the members of the democratic minority of the committee on merchant marine and fisheries. In the main it is an argument against government subsidies, and asserts that most of the proposed \$9,000,000 subsidy will go to a few favored concerns, without building up American shipping in general or encouraging American exports.

Against Armor-Plate Factory.

Washington, May 14.—By a close vote the senate has rejected the proposition to erect, without reference to the price at which the government could secure armor plate for its warships, an armor-plate factory. The vote upon the direct proposition was 22 to 24, and subsidiary amendments were rejected by about the same vote.

President to Go to Canton.

Washington, May 14.—After the adjournment of congress Mr. and Mrs. McKinley will go to their Canton home to remain the greater part of the mid-summer.

TO BRING SULTAN TO TIME.

State Department Ready to Try a Demonstration.

Washington, May 14.—Although the department of state is silent as to the course to be pursued toward Turkey in case the sultan persists in ignoring the demand of the United States for payment of the indemnity, which the sultan has admitted to be just and due, it is ascertained from one of the foreign legations that there is evidently a purpose on the part of the United States government to try the effect of a demonstration to constrain the payment promised. The foreign representative who learned this has mentioned it with astonishment to some of his associates and it has undoubtedly found its way to the several courts in Europe. The intimation is heard here that the German government has signified its disapproval of the published proposition that, in case of a suspension of diplomatic relations with Turkey, the interests of the United States shall be turned over to Germany. Germany is engaged in an effort to ingratiate itself with the sublime porte and would look upon the invitation to take care of the United States in Turkey as an embarrassment. No conjecture is indulged in at the department of state as to the mission of Ahmed Pasha, the Turkish admiral, who is reported to have started for this country to arrange for the building of a ship of war that is to be paid for at the value of the vessel plus the amount of the indemnity for the losses at Harput and Marash. The government would not listen to any such proposition, and, if it did, it is believed that when the ship was delivered to the Turkish government another claim would have to be asserted in order to obtain the cost of the ship and the indemnity added.

Forest Park Lot Investment A Safe Deal.

AUCTION SALE WITHOUT RESERVE TO THE HIGHEST BIDDER

SATURDAY, MAY 19TH,
AT 1:30 P. M. : : :

The purchase of a good lot at a reasonable price is a safe investment. It is only a few years since there were plenty of choice building lots on Milton Avenue, East Milwaukee Street and on the hill east and south-east of the Court House square. They have been gradually picked up until now it is difficult to find a real choice building spot in any of these localities at a reasonable price.

The unsold lots in Forest Park are really the only good locations away from the shops and railroads, dust and noise, which can be had at moderate figures and on easy terms.

TERMS: 2-5 Cash,
2-5 in One Year,
1-5 at End of 2nd Year

Note at 6 per cent. secured by mortgage, or 5 per cent. discount for full cash payment.

W. T. DOOLEY,
AUCTIONEER.

For further particulars inquire of D. W. WATT, Agent, Hayes Block, Janesville.

PILES!

A certain cure for this painful and annoying disease. Safe, reliable and sure in every case. R. J. Sarasy, 51 W. Milwaukee St., has secured the agency of the famous Dr. Wilkin's Non-Irritating Pile Cure, a new compound consisting of internal and external treatment, simple to apply, purely vegetable, perfectly harmless. It is better than the knife—cures quicker, easier and safer. Thousands have used it, thousands have been cured by it. We will guarantee relief at once and permanent cure. COSTS BUT A TRIFLE. Badger Specific Co., Station C, Milwaukee, Sole Proprietors and Compounders.

Chicago,

MAY FIGHT AT VAAL RIVER.

Boers Retreat to the North and
Throw Up Intrenchments.

GET AWAY FROM KROONSTAD.

Many Arrests Made of Those Who Were
Suspected of Maligning the British—
Free State and Transvaal Not on Good
Terms.

London, May 14.—The Boers have retreated from Kroonstad to the Vaal river, where they are intrenching and expect to give battle to the force under Lord Roberts. It appears that the Boers at Kroonstad had been reinforced by 3,000 men from Natal last Friday, and that altogether 10,000 men with twenty guns, trekked from Kroonstad on the approach of Lord Roberts. The Boers made an ineffectual stand at Boersrand and had elaborate intrenchments in front of Kroonstad, which offered great facilities for a rear-guard action. Their only anxiety, however, appears to have been to get away safely with all their guns and convoys, which again they have successfully accomplished. The few stores they were unable to carry away they burned. Gen. French encamped northeast of Kroonstad and dispatched a force to cut the line. The project succeeded late at night, but, unfortunately, after the departure of the last train. Although the troops had marched sixteen miles, they were in excellent form on entering the town. Many arrests have been made, chiefly of those who had maligning the British. It was found that many persons have been deported from Ladybrand for ultra sympathy with the British.

President Steyn has gone to Lindley, the new seat of the Free State government. A number of the burghers are trekking homeward. The opposition in the Free State is practically over. All the prisoners in the hands of the British here agree that the quarrel between the Free Staters and the Transvaalers is so acute that the Transvaalers have decided to leave their allies, whom they accuse of cowardice and lack of patriotism. Most of the Transvaal prisoners think that if they are defeated at the Vaal river the Boers will retreat to Pretoria, but there appears to be a growing distrust in the Transvaal government. In a word, the back of the Boer resistance seems to have been broken. The burghers are fighting without their previous stubbornness. They seem ready to retreat on the slightest pretext. The prisoners, even the Transvaalers, appear glad to have been captured. They say they are sick of a war which can have only one end. Several have exclaimed, "We have lost our liberty, but why should we lose our lives?" President Steyn is represented as having been frantic with rage and as having kicked and cuffed the burghers after vainly imploring them to continue their fight. There was practically no fighting and there are no further details to give respecting the occupation of Kroonstad. Lord Roberts, after a march which is regarded as worthy of being ranked with his famous march to Kandahar, has thus covered another stage of his campaign, a stage which, although successful and without the mistakes and misfortunes which characterized the earlier stages, leaves the Boer forces quite intact, not having lost a gun and having lost very few men. Experience has taught the critics to be chary of accepting reports of Boer demoralization.

Offer Made Rev. Dr. Lorimer.
Boston, Mass., May 14.—Rev. George C. Lorimer, D. D., pastor of Boston's famous Baptist church, Tremont temple, and formerly of Chicago, has been invited to accept the presidency of Columbia university at Washington. One of the trustees recently visited Dr. Lorimer here and tried to prevail upon him to accept, but his answer, which was reported to the full board, was that he desired time to consider the matter. Dr. Lorimer said tonight that he thought quite favorably of the offer, but his pastorate here had reached the highest ideal and he was satisfied to continue, but if the university offered larger opportunities for usefulness he might accept.

Lake Sailor Leaves a Million.
Cleveland, Ohio, May 14.—The will of the late Capt. Thomas Wilson, the millionaire vessel owner, which has just been filed in Probate court, provides that one-half of the estate shall go to the widow during her life and the remainder to the three children. Upon the death of the widow the will directs that one-half of the estate shall be used to establish a home for aged couples, to be known as the "Wilson Home for Aged Couples," and that in all cases preference shall be given to sailors on the great lakes and their wives. The fortune left by Capt. Wilson is estimated at \$1,000,000.

Dead Man Under a Raft.
Clinton, Iowa, May 14.—This afternoon the body of a man was found among the logs of a raft which was brought from Stillwater, Minn., about two weeks ago. It is believed the man was drowned at that place. A photograph, a silver watch and a small amount of money was found in the pockets, but nothing which would indicate his identity.

Student Killed by Lightning.
Holland, Mich., May 14.—Henry D. Brink, aged 25 years, of Hamilton, Mich., a member of the senior class of Hope college in this city, was killed by lightning while preparing for breakfast. A broken collar button and burned shirt band indicate where the bolt struck.

An Epidemic of Whooping Cough.
Last winter during an epidemic of whooping cough my children contracted the disease, having severe coughing spells. We had used Chamberlain's Cough Remedy very successfully for croup and naturally turned to it at that time and found it relieved the cough and effected a complete cure.—John E. Clifford, Proprietor, Norwood House, Norwood, N. Y. This remedy is for sale at Smith's Pharmacy, Kodak agents, opposite P. O.

When doctors fail try Burdock Blood Bitters. Cures dyspepsia constipation; invigorates the whole system. Takes the burn out; heals the wound; cures the pain. Dr. Thomas' Electric Oil, the household remedy.

The little folks love Dr. Wood's Norway Pine Syrup. Pleasant to take; perfectly harmless; positive cure for coughs, colds, bronchitis, asthma. Scratch, scratch, scratch; unable to attend to business during the day or sleep during the night. Itching piles—horrible plague. Doan's Ointment cures. Never fails. At any drug store 50 cents.

If the Baby Is Cutting Teeth.
Be soothed and use the old and well tried remedy Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Seeks Revenge in Murder.
Butte, Mont., May 14.—Charles Paustein, a well-known athlete, shot and killed Alexander Tate, manager of a butchering concern. He also shot and seriously wounded Mrs. Tate and then committed suicide. Paustein charged Tate and his wife with being responsible for Mrs. Paustein securing a divorce, and the shooting was in revenge. Mrs. Paustein accused her husband of cruelty.

The ancients believed that rheumatism was the work of a demon within a man. Any one who has had an attack of sciatic or inflammatory rheumatism will agree that the infliction is demonic enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but it will cure rheumatism, and hundreds bear testimony to the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth many times its cost. For sale by Smith's Pharmacy, next to post-office, Kodak agents.

Very Low Rates to Detroit, Mich.
Via the North-Western Line. Excursion tickets will be sold from all stations, on account of National Baptist Anniversary to be held at Detroit May 23 to 29. For dates of sale and limits, apply to agents Chicago & North-Western Ry.

NOTHING IS BETTER.

Impossible to Manufacture a
Better Remedy.

Wisconsin People Make Good Witnesses of
the Success it Has Achieved.

There can be nothing better for backache, nervousness, sleeplessness and all ailments arising from kidney disorders than MORROW'S KID-NE-OIDS. It is impossible to manufacture a better remedy. KID-NE-OIDS contain the very best ingredients that are good for ailments arising from the kidneys. The vast number of people in this city who have testified to the merits of KID-NE-OIDS is sufficient proof that none of our claims are false. Mrs. P. S. Johnson, 881 Harrison street, Beloit, Wisc., says: "I have been afflicted with kidney backache and other symptoms of disordered kidneys for some time past. During the continuance of my troubles I have experimented with kidney pills and other kidney remedies but did not get any relief until I used MORROW'S KID-NE-OIDS. In a very short time I was greatly relieved. I continued to take KID-NE-OIDS and I am being relieved of all my former troubles very rapidly. I think KID-NE-OIDS a splendid remedy for kidney troubles."

MORROW'S KID-NE-OIDS are not pills but yellow tablets, and sell at fifty cents a box by all druggists and to The People's Drug Co.

Mailed on receipt of price. Manufactured by John Morrow & Co., chemists, Springfield, Ohio.

Everybody is Cleaning these days. So are
waists and dresses dry cleaned without removing
any trimmings. Garments cleaned and
pressed like new. Lace and chenille curtains
cleaned and dyed. Bed feathers renovated on
short notice.

WORK OF SIGNALMEN.

Notable Exploits of American Soldiers in Luzon.

GREAT VALUE OF THE "BUZZER."

Over a Thousand Miles of Military Lines Now in Operation—Sergeant Flannery's Feat of Telegraphing Without an Instrument While Under Fire—Telephones Also in Use.

On the wall in the central office of the signal corps in Manila hangs a blue print map of the island of Luzon. On it, like the arteries of the human system on an anatomical chart, are depicted in red pencilings the various military telegraph lines. Captain Russell of the signal corps is proud of this map.

"Here," said he, covering with his two hands a network of red lines about Manila, "was the extent of the army telegraph lines three months ago. Now look where we are today," and he stretched his arms up to point to the two narrow little red lines running to the extreme northern end of the island and then swept his hands downward to point out the cable system in the Laguna de Bay and the network of lines extending to the various garrisoned towns south of there as far as Batangas.

Since active operations began in October last the signal corps has rigged up more than a thousand miles of lines, says the Manila correspondent of the New York Sun, writing under the date of Feb. 18. This would have been a still bigger job than it was had it not been for the involuntary assistance rendered by the insurgents themselves in leaving uninjured several hundred miles of line formerly built by the Spaniards and later used by the rebels. The signal corps men following the troops seized these lines as often as they came handy and strung their own wire to connect the breaks.

Previous to General Lawton's campaign up the Rio Grande last October and the subsequent routing of the insurgent government at Tula by General MacArthur there were barely 250 miles of telegraph lines in operation under the Americans. With remarkable speed the new lines were erected and telegraph offices established in the rear of the moving troops. Captain Russell was in charge of the signal corps detachment that accompanied General Lawton on his muddy tour through the Nueva Ecija country and along the mountains to head off Aguinaldo, and it was owing, to some mighty tall hustling by him and his men that General Lawton was able to keep in touch with Manila. The supply of insulated wire ran out, and it was necessary to lay bare wire for miles through the swamps and mire over which the column had to pass. By the aid of the little instrument called the buzzer it was possible to send and receive faint messages over this wire.

The signal corps force of Luzon at present consists of two companies of barely 100 men each, and these are widely scattered. In the district south of Manila the men are distributed among 65 telegraph offices, and in the district to the north they are taking care of many more. In some parts of the island little groups of men are unrolling wire behind moving columns of infantry and sending and receiving messages from flying field telegraph offices. In addition to erecting lines and operating them they have constantly to mend breaks where the rebels cut the wires, and this often involves fighting. So the signal corps men are kept busy and have plenty of adventures as well.

One signal corps sergeant went with five soldiers from Palavera to repair a break. The break had been found, and the sergeant was starting to repair it when a force of insurgents rose up in the tall grass by the roadside and poured a volley into the little band. They attempted to fight the rebels off, but it was useless. The sergeant dashed for the brush and succeeded in getting away. One of the soldiers also made his escape, but the other four were never seen or heard of afterward. This particular stretch of line was cut again and again and was finally abandoned. This line ran through a lonely region. Where a telegraph line extends along a highway bordered by native huts it is customary for the signal corps men to explain to the inhabitants that the line must not be injured under penalty of having their houses burned. Very few instances are known where natives have disregarded this warning.

Sergeant Flannery is an old hand in the signal corps and is ready to attempt anything under the sun ordered by his officers. He was stationed at Imus when the Filipinos began to press in on the road between there and Bacoor early in October. The day before this incident happened Private Gunderson had gone out to repair the telegraph line. He found the break at the point known as the Bend—"Bloody Bend" some people call it today—and was mending the wire, when insurgents on the opposite bank of the river began shooting, and he was killed. Twenty-four hours later a sharp fight was going on between an American infantry command and the insurgents at this same point. Sergeant Flannery was at work repairing the wire which had again been cut. He was drawing the ends together, assisted by Private Beals, and apparently unconscious of the bullets dropping about him, when the commanding officer rushed toward him.

"I want to get word to Imus for reinforcements," he said to Flannery. "Is there anyway you can send a message to Imus for me?"

"I have no instrument with me, sir,"

answered Flannery, "but I might try tapping with the ends of the wire."

"Yes, do it," ordered the officer anxiously. Flannery drew the two ends of the wire together and began tapping one on the other, calling Imus. He repeated the call at least a dozen times to make sure Imus was listening and then very carefully tapped off the message asking for reinforcements. This done, he placed the two ends of the wire against his tongue, and by means of the faint twinges he received he was able to make out Imus' "O. K." He was able to distinguish a dot and a dash by the duration of the twinge.

"All right, sir. They have the message," he reported to the infantry officer.

Private Beals had by this time received a bullet wound. Flannery devoted his energies to getting him to a safe place and then returned to the wire, which he duly finished repairing. As nifty and clever a piece of work as has been done during the war is the verdict of army officers who have heard of Flannery's feat.

It is now getting to be the custom for the signal corps to use very little insulated wire. By using the buzzer it has been found possible to lay bare wire flat on the ground in a hasty manner and send messages for many miles without insulation. The buzzer can also be used as a telephone. When it is recording the dots and dashes, it sounds much like a fly trying to make its escape from a piece of sticky flypaper. By means of the buzzer some wonderful feats have been accomplished in telegraphing over country where the wire has even lain in mud and water, and signal corps men in one instance were able to carry communication past a break where the ends of the wire rested on the ground a foot apart. The buzzer recorded very faintly, but the message could be made out.

Several telephone instruments have been furnished to the signal corps, and in many places they are in use. In the vicinity of Calamba the garrisons are able to telephone in a rude way as well as telegraph over the same line. The only drawback to the telephone system where the buzzer is used as a transmitter is the inability to signal by ringing. The operators obviate this difficulty by listening at stated intervals, say on the even half hour. The business handled at the central office in Manila in one day is enormous, and the average number of messages is 5,500.

The signal service in the Philippines is under the direction of Colonel Allen. The two companies in Luzon are commanded by Captain Russell and Captain Carr. Major Scriven, with a force of 50 men, is conducting the signal operations in the southern islands. His work at present has extended but little beyond Cebu and Panay.

SYDNEY SORELY 'STRICKEN.

Bubonic Plague Beyond Control in the Australian City.

Dr. Bartlett, a celebrated physician of Sydney, who arrived at Vancouver, B. C., the other day on the steamer Mowera, says the bubonic plague has got entirely beyond the control of the authorities at Sydney and that till winter comes, it cannot be stamped out.

The quarantine covers a large part of the lower section of the city and in many cases prevents men from attending to their occupations, says the New York World. There have been several disturbances which it has taken large squads of police to quell. There were seven new cases of the plague the day the steamer sailed. Two big tenement houses that were infected have been burned, and provision had to be made by the municipality for the poor people who had been living there. Business is at a standstill.

All sorts of expedients are being employed to rid the wharfs of rats. Besides the bounties paid by the city and the wharf companies, captains of ships pay 3 cents a head for every rat found on board. The mooring ropes of ships are covered with tar, a substance over which rats generally refuse to pass, and on every cable are tin guards to protect the ships from rat invasion.

Infected rats in great numbers have fallen into the water, and the fish that have been poisoned by eating them are floating in thousands all over the bay.

Rhode Island's New Capitol.

Rhode Island is the smallest state in the Union in area, and its entire population is about equal to that of the city of Boston, yet this state, says the New York Tribune, has nearing completion a state capitol which is exceeded in cost by the capitols of few states and which, good judges declare, is equaled by none in architectural beauty.

The Cry of India.

Deep bosomed mother of millions,
Wide are thine arms to embrace
Children of every color,
Scions of every race.
If they be thirsty, thou givest
Wine of thy vintage sweet;
If they be hungry, thou sendest
Food from thy table to eat.

So they have come to thee, mother,
Pleading again and again,
Reaching forth hands of entreaty,
Never yet asking in vain!
Waged and weak with the famine,
Strong but to creep to thy knees,
And of all those that have sought thee
Weakest, most wasted are these.

Great hearted mother of millions,
Spreading the flaps of thy tent,
Giving to perishing peoples
Order and law and content;
Spare of the fruit of thy harvest,
Spare of the gold of thy corn,
Mother of sons and of daughters,
Mother of lives to be born!

Never the glow of the taper
Waned for the others it lit;
Gave of thy glow and thy glory;
So shalt thou lofter sit!
God hath been bounteous in blessing;
As ye received, shall ye give;
Answer the wail of the dying—
"Eat of my plenty and live!"

—Blanche Mary Channing in Boston Journal.

BORT, BAILEY & CO.

Special Sale of -

Children's Fast Black Hosiery

Tuesday, May 15.
11 1-2 c.

This is a case of 50 dozen of the well known ROCK-FORD HOSIERY. They are a fine ribbed, fast black, extra good quality, suitable for either boys or girls. They are worth 20c per pair and we are going to let them out at 11 1/2 c for this day.

They are one of the best Hose made for hard wear. They are the famous Rockford Hose and well known all over the country for their wearing qualities.

Come on this day,

Tuesday, May 15th,

And buy a dozen or two pairs. It will be a good investment.
